The Devil's Punch-Bowl--A National Wonder in Nevada.

Among the many curiosities of this State there is, perhaps, none more singular than what is called the "Devil's Punch Bowl," found to the southward of here some eighty odd miles. It is in a valley, like some of the found on the eastern slope of the Sierra, surrounded by the towering heights of this magnificent range, the garner of a nation's wealth.

The approach to the Devil's Punch Bowl is upon an elevation, or rounded hill, of apparently igneous formation. The orifice of the bowl is near the apex of the hill, the rock of which projects over the side of the bowl. On looking into the bowl, at first, the water has a dark green appearance, but, on looking, it becomes transparent, and throwing a stone into it, you can see it sink into the water to unknown depths. One remarkable feature of the water is its immense heat, being hot sulphurous punch at all times, and the heat has been tested in many ways. One was putting a snake into it which was cooked in an instant. Another experiment occurred not long since. A party of Platte Indians were on a visit to this bowl, when one of the bucks approached so near the edge that a portion of the rock gave way and he was precipitated into the caldron below. When he struck the water he was seen to stretch out almost instantly, and began to sink. The next day, however, his scalp, boiled from his head, came out at a warm spring some 500 yards from the base of the bowl, followed by other portions of the body, boiled loose and cooked done. These springs, of which there are many at a short distance from the bowl, are not as hot as the water in the bowl, as is evidenced by ducks alighting in them in very cold weather, and as was demonstrated by a friend of mine going in one, and almost getting out again, by reason of the fact that when he got into the pool he found a thin crust of soft formed the rim of the pool, the water extending indefinitely beneath, and when he would catch hold of it, to haul himself up, it would break, and let him down again. Finally, by getting down some ropes to him, he was pulled out, satisfied with experiments in a strange place. The surface of the ground gives with your weight, as you approach any of these springs in the valley around this hot punch-bowl, but the soil is such that it prevents you from going through, and the sensation is going over a giving surface over a bottomless volcanic pool, is not of the pleasant.

Another appropriateness about this vicinity is the great quantity of snakes that constantly dwell here. It seems to be the headquarters of the reptiles of all kinds. They are here in all varieties, of all shapes, colors and sizes. "Leek and Joke" jokes of snakes in "Wild Western Scenes," is nothing to compare with the snake's dominion around the Devil's Punch-bowl, the original snake of them all, and fitting it is, then, they should attend his majesty's rendezvous.

The New York Commercial List has a sensible article upon hard times and advertising. We clip a paragraph.

Another error, and a very common one among business men of limited experience, is that of economizing in the matter of advertising whenever "times are dull," profits small, and prospects not over promising. This is the rock on which many business firms are shattered. But the more experienced and successful merchant realizes the fact that when trade is dull, it is the more necessary to keep his name and his wares prominently before the public, in order the more likely to effect the sale of his merchandise. When the trade is active, buyers are plenty and apt to ask for what they want, but when the wheels of commerce revolve slowly, and business is sluggish, it oftentimes becomes necessary for merchandise to seek for buyers.

The business men of Chicago could profitably and wisely advertise much more extensively than they do. St. Louis is reaching out and making large bids for Chicago trade. Pick up one of her daily papers, and at a glance it will show how she expects to accomplish it--Inter-Ocean.

What a California Garden Grows.

Describing a garden in San Diego, Cal., the Union, a city, says it contains a guava tree 1 1/2 years old, loaded with blossoms; a Sicily lemon 5 years old, eighteen inches in circumference, on which are a number of lemons, one of which is one foot in circumference; a citron tree covered with blossoms; a pumila orange, 3 years old, one of the oranges on which measures one foot four inches in circumference; a Tahiti lemon, in full bloom; an orange seedling, only 4 years old, fifteen

feet high; a pomegranate, 2 years old this season, which bore twenty-four pomegranates; a Chinese lemon, 3 years old, hanging full of lemons; a nectarine 1 year old, eight feet high; an olive 3 1/2 years old, eighteen feet high; a mandarin orange 5 years old, on which were over 400 blossoms a few weeks since. Besides these, there are other varieties of figs, a Turkish fig tree, the white Ascher fig, Maltese peach-orange, Japanese persimmon, peach, etc.

A Good Talker.

A man has nearly talked himself to death in Kern county, California. A loquacious fellow known as Murphree, offered to wager \$50 that he could keep on talking for twenty-four consecutive hours, without interruption, and with no other stimulant than Delano whisky, which was to be furnished in unstinted quantity at the loser's expense. The wager was taken by another loafer, and the orator, mounting the stump, began a harangue on the subject of Kearney and the sons of toil. The start was made at 8:30 a. m. By 10:30 p. m. the demagogue had gone down cellar three times to catch breath, with no visible decrease in Murphree's stock of words. At 2:30 the next morning Murphree had been disposed of, together with the contents of another cellar. An argument in favor of the Chinese was then taken up. Murphree's articulation at 2 a. m. became rather husky and the thread of the argument rather difficult to follow, but he kept at it. One bet of \$70 was offered and accepted that he would not hold out, as he had swallowed, during the time of delivery, four gallons of whisky. Why time was at last called, and the water declared fairly won, Murphree's powers of endurance were exhausted. He fell from his cramped position on the chair and rolled over under the billiard table, a spongy mass of flesh and whisky; but, strange to say, his lips in this comatose condition still moved.

A \$500 Rooster.

That famous \$500 cock which was so much talked about in this country a few years ago has found a rival in point of proportionate pecuniary worth in a \$502 chicken. The English agricultural Gazette says that a gamecock was recently sold for the above excessive price, and suggests that in the future the raising of such chickens would prove a very lucrative source of income. The same journal, we notice, says that over \$13,000,000 worth of eggs were imported into England in 1876, and yet the supply was short of the demand. Here is an opening for poultry men, and a wider field for inventors of egg-preserving processes and egg-carrying devices.

MISCELLANEOUS.

The penetrating winds incident to this season of the year are a severe ordeal for the lungs. The neglect of a hard cough generally leads to a weakness of the lungs, which, not infrequently results in Consumption.

SCHECH'S PULMONIC SYRUP will at once relieve and loosen a tight cough and is such an agreeable remedy that children will take it without being coerced. A cold on the lungs, if consumption is already developed, may be easily mastered by the use of the Pulmonic Syrup, together with Schenck's Mandrake Pills to clear the system of the accumulated mucus.

In more serious cases, where the disease has become deeply seated, and the patient suffers from loss of appetite, weakness and emaciation SCHECH'S SEA WEEED TONIC should be used in connection with the above mentioned remedies, to stimulate the appetite and bring the digestive powers into healthy action, thereby sustaining the strength of the patient and enabling him to resist the progress of the disease until the Pulmonic Syrup may perform its healing and cleansing work.

The use of these standard remedies according to the directions which accompany them, cannot fail to produce most satisfactory results. A letter addressed to Dr. Schenck, cor. Sixth and Arch Sts., Philadelphia, asking advice, will promptly receive the Doctor's personal attention, free of charge.

Schenck's Medicines are for sale by all Druggists.

Judicial Election Notice. STATE OF WISCONSIN, '78. SECRETARY'S OFFICE '78. NOTICE IS HEREBY GIVEN that an election will be held on the first Tuesday in April, A. D. 1878, in the several towns, wards and election precincts in Rock county, State of Wisconsin, for the election of two Associate Justices of the Supreme Court, to hold their offices respectively for terms ending, two and four years respectively, after the first Monday of January, A. D. 1881, pursuant to the provisions of Chapter Sixteen of the Laws of 1878.

AN ACT to provide for the election of two associate justices of the supreme court of the State of Wisconsin. WHEREAS The legislature of this State, at the annual session for the year 1877, approved and adopted, by a vote of a majority of the members elected to each of the two houses, an amendment to the constitution of this State, in the following language: "Resolved by the Senate, the Assembly concurring: That section 4 of the constitution of this State be amended so as to read: Section 4. The supreme court shall consist of one chief justice and four associate justices, to be elected by the qualified electors of the State. The legislature shall, at its first session after the adoption of this amendment, provide by law for the election of two associate justices of said court, to hold their offices respectively for terms ending two and four years respectively, after the end of the term of the justices of the said court then last to expire. And thereafter the chief justice and the associate justices of said court shall be elected and hold their offices respectively for the term of ten years." AND WHEREAS The foregoing proposed amendment to the constitution of the State was duly ratified and agreed to by the legislature of 1877, and duly submitted to the people of the State of Wisconsin for approval and ratification, at the general election held in said State, November, 1877, and was by a majority of the electors of said State, voting thereon at said election, approved and ratified; and

WHEREAS Said amendment has now become a part of the constitution of the State of Wisconsin; therefore

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

Section 1. There shall be chosen by the qualified electors of this State at an election to be held on the first Tuesday in April, A. D. 1878, in each of the several towns, wards and election precincts of the State of Wisconsin, on the first Tuesday of April, 1878, two associate justices of the supreme court of the State of Wisconsin, to hold their offices respectively for the terms ending two and four years, on and after the first Monday of January, hereafter, and thereafter the chief justice and the associate justices of said court shall be elected and hold their offices respectively for the term of ten years.

Section 2. The ballot to be used at such election for associate justices may be written or printed, and shall contain the names of two persons legally qualified to hold judicial office in this State. Over the name of the first person on such ballot shall be written or printed the words: "For associate justice of the supreme court of the State of Wisconsin, to hold office for the term of _____ years, to be elected on the first Monday of January, 1881." Over the name of the second person on such ballot the words, written or printed: "For associate justice of the supreme court of the State of Wisconsin, to hold office for the term of _____ years, to be elected on the first Monday of January, 1881." Said ballots for associate justices shall be cast in a separate box, to be provided at each election precinct for that purpose.

Section 3. The persons duly elected at such election may qualify as soon as the result of such election is officially declared, and shall enter upon the discharge of the duties of their respective offices upon their election and qualification, pursuant to law. The secretary of state shall give the substance of the preamble of this act, together with the act itself, in the notice of said judicial election, such notice to be given two days before and in manner as now provided by law for notice of election of judges of the supreme court.

Section 4. The votes cast for said justices shall be counted and returned by the inspectors of the election, such notice to be given two days before and in manner as now provided by law for notice of election of judges of the supreme court.

Section 5. The provisions of this act shall apply to the election of associate justices of the supreme court of this State, and shall not apply to said judicial election.

Section 6. This act shall take effect from and after its passage and publication.

Approved February 15, 1878. Given under my hand and Official Seal, at the Capitol, in the City of Madison, this 5th day of March, A. D. 1878.

H. B. WARNER, Secretary of State.

SWORN EVIDENCE.

The following Cure is probably the most remarkable ever effected by any medicinal preparation for the treatment of Catarrh:

Gentlemen, I hereby certify that there has been a cure of my Catarrh of the bladder, after ten years of suffering, by the use of your medicine. I was afflicted with this disease for ten years, and during that time I suffered the most excruciating pain, and was unable to perform my duty. I had consulted many of the best physicians, and had used every remedy, but without success. I was at last induced to try your medicine, and after using it for a few days, I felt a great relief. I continued to use it, and in a short time I was completely cured. I am now able to perform my duty, and I feel that I owe you a public acknowledgment of the cure.

Three croquet sets in a row in town, and all running on full time and to their utmost capacity. Pretty good for the middle of March.

NEWARK.

Never before since the first settlement was made in Newark was vegetation so far advanced, at this season of the year as now. Frequently on the first of May, grass is not as forward as it is now. The past winter was not more remarkable, though plowing was done every month in the winter.

A. L. Fossum is building a house which is estimated to cost when completed from two to three thousand dollars. This will make Mr. Fossum's buildings as good, and probably the best, in town.

Prospects are favorable for a good crop of apples the coming season. If no unforeseen obstacle presents itself hereafter.

J. E. Sargent, of Janesville, has been conducting singing schools in the Baptist church, and in District No. 6, during the winter. The instruction has been practical and thorough, and an unusual interest and profit has been the result. Mr. S. has several pupils in instrumental music in this vicinity all of whom are succeeding admirably under his instruction.

The early spring induces farmers in this locality to sow an unusual quantity of wheat.

Mark Twain's Hotel.

Having lately opened a Lashery, I send you these, my rules and regulations: This house will be considered strictly temperate. None but the brave deserves the lare.

Persons owing bills for board will be paid for bills.

Boards who do not wish to pay in advance are requested to advance and pay. Boards are expected to wait on the boarder cook—for meals.

Sheets will be nightly changed, once in six months, or more, if necessary.

Boards are requested to pull off their boots, if they can conveniently do so. Beds with or without bugs.

All moneys and other valuables are to be left in the charge of the proprietor. This is insisted upon, as he will be held responsible for no losses.

Inside matter will not be furnished to newspaper men under any consideration—reporters keep scarce.

Single men with their families will not be boarded.

Dreams will be charged by the dozen. Nightmares hired out at reasonable rates.

Stone vaults will be furnished to snoring boards.

Female Medical Students.

Indianapolis Journal Interview.

"Tell me what influenced the faculty to take that step?" "Simply the fact that we don't want any more women in our class. I wouldn't object to lecturing to a class of them, but a mixed class is very embarrassing. True enough it may be said that if the woman can stand it, she certainly might, too, but there's a certain modesty that men can't overcome."

"If the women do," interjected the reporter, "Yes, if the women do. And if those persons who signed the memorial to Prof. Brown would do as much for the medical education of women as the faculty of the Indiana Medical College will do, they all can be sent to the Female Medical College at no expense to them. I had rather pay the expenses of a student at one of them than to have her in my classes." Where are the female colleges situated? One at Chicago, two in Philadelphia, one in New York, and probably elsewhere. They are good institutions, and worthy of support. The women, being thus provided with the same facilities for education as men, ought to be willing to leave our colleges alone. If a man applied for admission into one of our colleges he would probably be refused, and we don't think we ought to be commended for desiring to keep our classes open for men only. Anyhow, we don't want women in them, and have determined not to admit them in the future."

Killing Ticks.

What will kill ticks on sheep, and not kill the sheep? I have fed my sheep salt and sulphur; I have taken ticks and put them into sulphur, have held them under a strong decoction of tobacco; have held them under water fire minutes but they have then come to life again. A drop of strong camphor killed one of them, but a sheep dip of water would be expensive and might kill the sheep too. W. M. E. [A strong decoction of good tobacco will kill ticks every time. Get some good snuff, and put small pinches into the fleece all over the sheep, parting the wool so that the snuff may be placed upon the skin of the sheep. After shearing, dip the sheep into the following wash: Fill a 40-gallon iron kettle one-third full of soft water, and put into it, two pounds of arsenic, and six quarts common soft soap. Bring it nearly to a boil, and keep it heating for one-half hour, stirring the mixture with a stick all the time, but not bringing it to the boiling point. Then fill up the kettle with cold soft water, and the temperature will be right for dipping, and it will surely kill all the ticks and "eggs" — page 1—Country Gentleman.

Democratic Drift.

From the Cleveland Herald.

of the Government, the security of property and the established interests of society. On one side we may expect to see the staple interests of the community—men who own farms in the country or homes in towns or cities, or are in possession of steady employment that identifies their interests with those of the property holding and property-getting class. On the other will be the thrifless, the shiftless, the discontented, the idle and the vicious, and the demagogues who seek the suffrages of these classes. It is needless to say on which side of the line the Republican party will be found, and on which the Democratic party.

Head, nerves, kidneys, bladder, womb, and blood affections of the urinary organs, gravel, scrofula, rheumatism, catarrh, asthma, bronchitis, dyspepsia, &c.

Dr. Price's reputation has been acquired by candid, honest dealing and years of successful practice.

My practice is not one of experiment, but founded on the laws of Nature, with years of experience and evidence to sustain it. It does not fear disease, make sick to make well; no harsh treatment, no trifling, no flattery. We know the cause and the remedy needed; no guess work, but knowledge gained by years of experience in the treatment of chronic diseases exclusively; no encouragement of a transient prospect. Candid in our opinions, reasonable in our charges, claim not to know everything, but assure everybody that we lay claim to no common and common sense. We invite the sick, no matter what their ailment, to call and investigate before they abandon hope, make interjections and decide for themselves; it will cost nothing as consultation is free. BRIEFLETS.

Gentle Annie has a chill to-day.
The sprinkling cart will soon be needed.

Mutual Improvement Club meet to-night.
Only two tramps strolled in since Saturday night.

Remember the Republican caucus to-morrow evening.
The most important meeting yet of the Knights of Honor, to-night, at sharp seven.

Mr. James W. Nash leaves to-night for Colorado, where he intends engaging in the stock business.

A Sonnerborn returned from New York, on Saturday, and piles of new goods are being received daily by his firm.

Attention is called to the advertisement of O. Paulson in another column, which will be of interest to all in want of good clothes.

Prof. Whitford reports the teachers' institute lately held at Footville, as being the largest ever held there, about 70 being in attendance.

Mrs. Clough, owner of the East side sprinkling cart, who had a team killed by the cars last fall, has invested \$300 in a pair of steeds to take their place.

Rev. Mr. Sawin's lecture on Mirabeau to-morrow night at the Congregational church is one of special interest, and has been given with great acceptance elsewhere.

The first lecture of Rev. H. M. Simmons course on Astronomy, announced for to-morrow night, will be postponed till Thursday evening, when the course will be continued on successive evenings.

Mr. John W. Allen has been troubled greatly because some think he is the Allen who acted as Secretary of the Democratic Convention Saturday night. He says he never was mean enough to act in that capacity.

A regular chimney sweep, correspondingly attired with all the professional appliances, put in an appearance on the streets to-day. He has a good pair of lungs, and uses them with becoming fearlessness and enthusiasm.

Rev. T. P. Sawin will deliver his lecture on Count Mirabeau at the Congregational church to-morrow, Tuesday evening, at 7:30 o'clock, for the benefit of the Ladies' Benevolent Society. Admission 15 cents. Tickets to be had at the door.

Deputy Sheriff Marsh still keeps his wrist dressed in a bandage as the result of the blow which he gave one of the fellows who was trying to break into jail. The fellow who received the blow is unfit for duty, and is being nursed at the jail.

We notice that McKee & Bros. are making larger additions to their stock of carpets. They opened this morning large lines of Ingrains and Brussels tapestries in new and elegant designs, to which we wish to call the special attention of buyers.

The case of Z. Custer, charged with selling a worthless patent-right to Z. Curtis has been postponed until next Friday, on motion of the defendant. It is understood that a compromise is being effected, which will cause the prosecution to drop the matter.

The three tramps who were caught passing whisky into the jail, and who showed fight, and only yielded when knocked down and severely punished, are still locked up. They were to be tried to-day on the charge of resisting the Sheriff while he was in the discharge of his duty, but the Sheriff was unable to appear, and a continuance was ordered. Sheriff Colley, it appears, sprained his leg slightly, in the encounter, and rheumatism has since set in keeping him a prisoner at home.

Miss Clara L. Northington, who has just graduated with honor from the Woman's Medical College of Chicago, and whose home has been in Durand, Ill., has concluded to enter upon the practice of medicine in this city, and has opened an office at No. 19, West Milwaukee street, Tallman's block. She has given special attention to diseases of women and children, as well as nervous troubles, and being thoroughly educated, will doubtless find here a successful field of labor. She has had a study and practice of about three years, and is said to have met with very flattering success.

While the Hyers sisters were in this city there were rumors of an outbreak between them and their Treasurer, Pond, and it was said that the latter had overdrawn his account to the extent of two or three thousand dollars. It now appears that Pond lost about \$900, as he claims, at McDonald's gambling rooms in Chicago. He has commenced action against McDonald, to recover the same, and in his testimony as given in the Chicago papers, he admits that the money he staked belonged to the Hyers sisters, but says he expected to win instead of losing, but that he had kept the winnings himself.

Rev. Mr. Royce this morning fell heir to a larger amount of real-estate than is generally possessed by clericals. As he was taking his morning horseback exercise for his health, the steed became so enthusiastic in the desire to show his kicking abilities as to throw the clerical gentleman, and managed to successfully drag him through a large mud puddle, immersing him in spite of himself, but fortunately causing no serious damage, save that to his clothing. He was hurried into a friend's house near by, where he was given the necessary articles to enable him to make his appearance on the streets again.

THE WEATHER.

The thermometer at 7 o'clock this morning stood at 30 degrees above zero and at 2 o'clock at 42 degrees. Clear. The indications to-day are for the upper lake region, upper Mississippi, and lower Missouri valleys, clear or partly cloudy weather, cold northeasterly veering to warmer southeasterly winds and falling preceded at south-east stations by stationary barometer.

The report over the mines are to the effect that there was a fall of snow at Ripon yesterday. In the East especially in New York, considerable snow fell yesterday.

THE NIGHT OF KNIGHTS.

The Gallant Ones Come From Far and Near to Institute a New Lodge in this City, and Christen it the "Oriental."

A Merry Banquet and a Long Evening of Work.—The Names of the Raw Recruits, and Their Officers.

Saturday afternoon and evening gave the city the appearance of a small Fourth of July, owing to the presence of a large number of gallant Knights, with gay regalia, flashing swords, and waving banners, parading the streets with a flourish of trumpets, and followed by the usual sidewalk crush of sight-seers. These gallant decked visitors were Knights of Pythias, who came to the city to institute a new lodge, just chartered. They were met at the depot by the charter members and the Bower City Band, and made a fine street parade during the afternoon.

At six o'clock they gathered about a banquet prepared at the Myers house, and which kept just 104 sets of knives and forks rattling against the plates until they all cried "enough."

As soon as quiet could be restored, Mayor Norcross was called upon, and in a few well-chosen words gave the visitors a hearty welcome. He was glad that they came, and regretted that they could not make a longer stay. He believed that by becoming acquainted with Janesville's good folks they would like them. He hoped that silver would become so plenty now, that on the next visit he would be able to give the Knights a silver box, lined with gold, and containing the freedom of the city.

Mayor Galloway, of Fond du Lac, responded happily. He said he could eat better than he could talk, but expressed the appreciation of the hearty welcome extended to the visitors.

Mr. G. B. Shaw, of Eau Claire, said he was no Mayor, and didn't know as he ought to speak, but in behalf of his fellows he would say that they liked Janesville, in fact they liked it so well that they thought of buying it.

H. M. Kulebin, editor of the Fond du Lac Commonwealth, followed with a few remarks, thanking those who had received them so cordially, and had so generously provided for their comfort.

Mr. H. Harshaw, of Oshkosh, made a very practical speech. It was "Arise, let us go hence." He said they had come to Janesville to work, and it was time they were getting at it.

The banquet therefore broke up, and the procession was again formed, and proceeded to the hall. The Knights had by that time had about enough of marching and counter marching, the visitors from Oshkosh, Fond du Lac and Watertown having arrived on the 3 o'clock train, and those from Milwaukee arriving at about 5 o'clock, making two marches necessary to and from the depot, beside the parade through the principal streets. On arriving at the hall the following charter members were duly initiated:

John P. Williams, A. W. Baldwin, Wm T. Van Kirk, Phil Norcross, Horace McElroy, Charles E. Mosley, G. M. Hanchett, Nicholas Smith, J. Edmund A. May, Mark Ripley, Stanley B. Smith, Joseph L. Ford, Robert M. Rootwick, John Livingston, E. Bart Holmstedt, A. B. Baxter, Clark E. Ransome, Frank C. Cook, Clem S. Jackman, C. S. Crosby, Geo. H. Patterson, Will D. McKee, Joe B. Doe, Jr., Charles A. Potter, A. E. Moore and Joe B. Valentine.

The new lodge was then instituted to be known as the "Oriental Lodge, No. 23, K. P., Janesville, Wis."

The following are the names of the visitors present:

GRAND LODGE OFFICERS.—L. W. Goss, Milwaukee, P. G. C. & S. R.; G. B. Shaw, Eau Claire, P. G. C. & S. R.; James W. Gaines, Watertown, G. C.; H. M. Kulebin, Fond du Lac, G. V. C.; C. A. Curtis, Milwaukee, S. R. & S.; G. W. Goss, Eau Claire, G. I. G.; and T. W. Hamilton, Berlin G. O. G.

ST. JOHN'S LODGE, No. 9, Oshkosh.—Past Chancellors, A. D. Back, H. B. Hanehan and Benj. Smith; M. H. Eaton, V. C.; C. N. Smith, H. P. Paige, James McNair, G. F. Gray, Sam C. Nessling, E. S. Jones, Fred Brownman, J. B. Murray, Theo. Podolski, Frank Schomer, George H. Buckstaff and W. H. Ballou.

LINCOLN LODGE, No. 29, Watertown.—Past Chancellors, Joseph Hamlin, H. B. Quick, Wm. Humphrey; William Krause, C. C.; J. B. May, V. C.; D. K. Beardsman, K. R. & S.; D. T. Evans, M. F. and Knight H. W. Babcock.

The JunEAU Lodge of Milwaukee, had about twenty representatives, who intended to be present but by some unfortunate mistake about the time-table were left.

The visitors after completing the business which was the occasion of their visit, took the Sunday morning train for home, the conductor of which Sam C. Nessling is also a member of the lodge.

At the election of officers, Oriental Lodge, No. 23, Knights of Pythias, the following officers were elected and duly installed this morning, by James W. Gaines, Grand Chancellor of the State:

John P. Williams, P. C.
A. W. Baldwin, G. C.
W. T. Van Kirk, V. C.
H. McElroy, P.
A. E. Morse, K. of R. & S.
Chas. L. Valentine, M. of F.
C. S. Jackman, M. of E.

The order seems to be founded on the old story of Damon and Pythias, the two celebrated Syracusans, who are always deemed the types of the truest friendship.

Pythias was condemned to death by Dionysius the Elder, but requested to be temporarily released in order to arrange his affairs, promising to procure a friend to take his place, and suffer his punishment if he should not return. Pythias was allowed to depart, and Damon gave himself up as his substitute. Before the time appointed for the execution Pythias returned. Dionysius set both of them free. They both belonged to the club formed by Pythagoras and from

this is supposed there sprung forth the principles of that friendship that the Knights of Pythias seek to carry out. The idea of an order, having for its main purpose the inculcation of lessons of friendship as based on this old story, seems to have originated in this country with J. H. Rathbone, and the first lodge was organized in Washington in 1864. In six years it swelled its membership from 75 to \$84,000, and its number of lodges from 3 to 700, and is still steadily growing, and has been introduced into over 30 States and Territories. The Order sets forth Friendship as its first and foremost and all-embracing principle. It has an insurance plan, similar to that of the Odd Fellows, but it is not obligatory upon any member.

THE DEMOCRACY.

It Sets Its Feet upon Their Pins, and Makes Ready for the Republican Ball to be Set Rolling Against Them.

The Ticket Completed, Though the Nominee for Mayor Gives but a Chilly Acceptance of the Proffered Honor.

The Democratic party, by their delegates, assembled at the Common Council chamber on Saturday evening, for the purpose of putting in nomination a municipal ticket to be voted for at the approaching spring election. At the appointed hour the delegates assembled, and in appearance was not much unlike the former mass conventions of this party. Fifteen delegates from each ward, seventy-five in total, together with the hangers-on, gave it an unwieldy appearance as is usual in Democratic assemblies. The room was full, and for some of the offices the contest was quite spirited.

Mr. Charles Sexton, Chairman of the Democratic City Committee, called the Convention to order, when Hon. J. B. Doe was elected Chairman, and John A. Allen Secretary.

On motion the chairman appointed A. O. Wilson, Ed. Connelley, Richard Valentine, A. D. Wickham, and S. B. Case a Committee on Credentials, who, after a few minutes deliberation agreed on the list of delegates as published on Saturday, with a few additions of names.

The Convention then proceeded to an informal ballot for Mayor with the following result, Wm. Smith, Jr., and M. S. Prichard being appointed tellers:

Whole number of votes.....67
Necessary for a choice.....34

J. A. Blount.....31
J. R. Pease.....19
J. M. Burgess.....14
H. D. McKing.....9
John Winans.....5
C. Sexton.....2
U. Schutt.....1
G. C. McLean.....1
R. Valentine.....1

Mr. M. C. Smith peremptorily declined to be considered a candidate, and would not under any circumstances accept the office. He requested his friends to cast their votes for some other man.

Messrs. Winans and Pease also declined to be considered as candidates.

FORMAL BALLOT.

Whole number of votes.....69
Necessary for a choice.....35

J. A. Blount.....41
M. C. Smith.....22
J. Winans.....2
J. R. Pease.....1
J. M. Burgess.....1
G. C. McLean.....1

The Chairman declared that Mr. J. A. Blount, having received a majority of all the votes cast, was duly nominated as candidate for Mayor.

Here Mr. Blount, who was a delegate from the Fourth ward, arose, thanked the Convention for their kind consideration, and stated that he was compelled to decline the honor, and could not accept the office.

Pending a motion for a formal ballot for City Clerk, Hon. John Winans raised the point as to the disposition of Mr. Blount's refusal to accept the office of Mayor. After a little party lashing by several of the "whippers-in," Mr. Winans moved that Mr. Blount's nomination be declared unanimous, which prevailed, and there the matter rests.

A formal ballot for City Clerk resulted.

Whole number of votes.....71
Necessary for a choice.....36

J. M. Burgess.....41
H. P. Ehringer.....20
B. Wheeler.....10
M. Burgess.....9

Mr. Burgess was declared nominated for the office of City Clerk.

There seemed to be no opposition to J. M. Hazelton, for the treasurership, and that gentleman was nominated by acclamation.

A formal ballot for City Attorney resulted.

Whole number of votes.....74
Necessary for a choice.....38

Horace McElroy.....53
A. Hyatt Smith.....19
J. Winans.....9

Horace McElroy was declared nominated for City Attorney.

The rest of the work was done by acclamation, as follows:

Justice of the Peace—A. D. Wickham.
Police Justice—M. S. Prichard.
Sealer—Edgar A. Richardson.

The following City Committee was then announced by the chairman:

First Ward—Chas. Sexton.
Second Ward—S. Hutchinson.
Third Ward—M. C. Smith.
Fourth Ward—G. C. McLean.
Fifth Ward—J. A. Millmore, Chairman.

The Convention then adjourned.

Altogether it was the most unenthusiastic and most quiet Democratic convention which has assembled in this city for years.

LOTTE AS "TOPSY."

There was a gaily sized audience at the Opera house last Saturday evening, much larger than there would have been probably had not many confounded Lottie with Lotta, who has become such a world-wide favorite. There is much more difference in their personations of Topsy's character than in the spelling of their names. Lottie is good in some parts, but those who had heard Lotta, and who expected to hear her again were sadly disappointed. Those who had not, applauded quite enthusiastically as there is sufficient in the play itself to awaken more or less enthusiasm, even when put into the hands of such poor

excuses for artists as tried to handle it Saturday night. The blood and thunder business was sufficient to excite the whistling and yelling boys in the gallery, and with the aid of a few in the lower part of the house, the audience gave the company frequent rounds of applause. Those who have seen the play brought out as it should be brought out, were not so easily carried away by pistol shots, frantic strutting about the stage, brandishing of knives, and the over-exertions of those who tried to do the light comedy. To see such a play, with all the respect due its venerable prestige, and associations, so ruthlessly handled, is a sort of sacrilege which the better class of amusement-goers would always object to. There were parts, however, that were very good. The piece dragged heavily, nearly three hours being consumed in its production, and its closing instead of being a beautiful death scene, with little Eva appearing as a vision, proved almost a farce.

PERSONAL.

Very many of the citizens are well acquainted with Oscar A. King, who has been a student in Dr. Palmer's office more or less of the time since 1873. During the fall and winter seasons he attended lectures and received instructions at the famous Bellevue Hospital College, New York. This spring he graduated and now returns to this city. He is to be congratulated in being able to enter the office of Dr. Palmer where he will begin the practice of the profession which he honors, and for which he is so qualified. Dr. King is a gentleman of fine address, of far more than ordinary ability, of high scholastic attainments, and for the profession which he has chosen, he has commanding natural talent. He is heartily welcomed to the city, and we trust his professional career will be abundantly rewarded. The following complimentary notice is taken from the Peru (Ind.) Republican:

Dr. Oscar A. King has passed through the second season of lectures and instruction at Bellevue Hospital, New York, and received his degree. He has spent a few days this week visiting his father's family and other friends in this county, on his way to Janesville, Wisconsin, where he intends to locate for the practice of his profession. His excellent natural talent has been supplemented by a thorough course of study and able lectures by the masters in medical science and surgery, and he can hardly fail to achieve a grand success.

TRIED TO ESCAPE.

One of the gang of prisoners, named Tucker, thought he would follow the example set him by others and tried this afternoon to escape from the gravel pit. He had not run more than two rods before he heard a bullet whizz by his ear, closely followed by another. He concluded to stop, and was then marched down to the jail where he was dressed up in a ball and chain and sent back to work again.

END OF THE YEAR.

Yesterday morning Rev. A. L. Royce, having completed his first year's pastorate of Christ Episcopal church preached an appropriate annual sermon, choosing as his text the twenty-ninth verse of the eighth chapter of Ezra, "Watch ye, and keep them, until ye weigh them before the chief of the priests and the Levites, and chief of the fathers of Israel, at Jerusalem, in the chambers of the house of the Lord." The speaker briefly described the occasion which gave rise to the words quoted. Ezra in his march across the desert to Jerusalem, was obliged to go through a country filled with enemies, but he had declared to the King that God was with them to protect them, and was therefore ashamed to ask for horsemen to guard them on the march. He called twelve of the chief priests and entrusted them with the gold and silver vessels of the house of God, after carefully weighing them, and told them in the words of the text to watch them closely, and expressed an intention to weigh them again at the journey's end to see if any were missing.

He then pictured a more practical lesson of the church marching through the wilderness to the heavenly Jerusalem where all the treasures entrusted to them would be weighed to see if they had kept well their stewardship. This treasure was not mere gold and silver. It was that inner nature, that soul-power, that spiritual life, which was more precious than any gems of earth, and which should be guarded over with the greatest vigilance. This inner spiritual nature, like the candle plunged into oxygen, burned more brightly, developed more rapidly, owing to the vivifying influence of that old, old faith handed down in an unbroken line from the early Christian fathers. This soul of man, this spiritual life of the church, this vivifying faith, were the treasures entrusted to the church, and over which strict guard should be kept.

Some of the chief dangers were then spoken of. The secularization of the church was one. There was danger in this age especially, of making the church too much of a commercial enterprise, allowing it to be conducted by stockholders for mere worldly purposes. The church was not given a commission to make open war on the doers of evil, but to fight evil itself. It was difficult to keep the happy mean of a clear, and unmistakable abhorrence of evil, and yet an earnest, winning manner of reaching out after sinners, and saying them. In the desire to win the world to Christ, there was a tendency to allow the world to crowd its secularizing influence upon the church, and make it a mere mart of barter and exchange.

An over-zeal was another danger. Not an over-zeal for the salvation of men, or for the maintaining of the purity of the church, but an anxiety to outstrip some other church. This had been the cause of trouble, and had tended oftentimes to lead the church into the hands of secularism. There was a zeal however that was beneficial—a spiritual zeal which should ever be manifest.

Care too should be taken that there should be no waste of the talents placed in charge of the church. Those talents were given not to keep folded in a napkin, but to use and to increase.

The sermon was an earnest one and presented much thought, which was garbed in

an attractive manner. Under the pastorate of Mr. Royce, the society has had a prosperous year, and its outlook is even more flattering.

SUNDAY LECTURES.

To the Editor.

MY DEAR SIR:—The communication of Rev. Mr. Jones in Saturday's Gazette, interested me, but was by no means a surprise. With no purpose of entering a controversy, but desirous of giving voice to what I know to be a wide sentiment in our community, I write this note.

Mr. J. seems more intent on protesting against the churches than against immorality and vice. Has he no higher mission? Have the churches done nothing for the world? Is it altogether "liberal" to characterize the worshipful of each Lord's day in Janesville as "droning to meagerly filled houses"? Does not such denunciation smack of jealousy or bigotry?

The quotations in reference to the Christian Sabbath are not very apposite, and certainly not at all conclusive. Would Mr. J. accept with equal readiness what his authorities have written about the duty of keeping sacred the first day of the week, as well as what they have said in reference to the manner and spirit of such observance? Undoubtedly "the Sabbath was made for man," but it was made for rest from toil and for the highest spiritual culture—works of necessity and mercy being permitted. "The Son of Man is also Lord of the Sabbath," and that fact exalts its dignity and confirms the original command to keep it holy.

There may be an honest difference of opinion as to the Sunday afternoon lecture system. But take Milwaukee as an example. The insane dribbling of Geo. Francis Train, the crude infidelities of Col. Ingersoll, the numerous conflicting fables andologies which have been proclaimed from that platform—not unmingled with better things—are regarded by many intelligent people as productive of evil. "What has been, may be."

Mr. J. may have no conscientious convictions about the Sabbath; let him be charitable towards those who have.

"The lumbering camps of the Peshtigo company were all broken up this week, with the exception of one, which will probably run a short time longer, as it has good ground to work on. The total cut of new logs for the season amounts to 35,000,000 feet, which with the logs will give them 35,000,000 feet for the season's supply, provided they all come down."

"The total cut of logs on the river this winter, including the Peshtigo company, is about 53,000,000 feet, which with 10,000,000 feet of old logs from last season, gives a stock of 63,000,000 feet available for this season. This is considerably less than the amount started out for last fall."

"Manufacturers of lumber expect that piece of stuff by the cargo will bring \$3 1/2 per 1,000 feet at the opening of the season."

CHICAGO MARKS.

CHICAGO, March 23.

Flour—The sales on to-day amounted to 50 bbls of white winter extras; 500 bbls of spring extras; 100 bags and bbls of rye; the market was again quiet though firm.

Wheat—The market on spring wheat—This market was somewhat excited to-day. The European news being more war-like than was expected, the bull side was looked upon with great favor, and as the shorts were obliged to purchase freely, an unusually interesting day was experienced. Business was active; the war fever was revived to a considerable extent, and the movement was marked by more or less irregularity. Prices also displayed a strong upward tendency, and on both cash and future property an advance equal to 1/2c was established over the closing quotations of yesterday evening. For immediate delivery No 2 closed at 1 05 1/2 for regular and 1 04 1/2 for gilt edge receipts.

No 2 sold for May delivery—the principal option—at 1 06 1/2 @ 1 07 1/2, and closed 1 06 1/2; seller April ranged from 1 04 to 1 05 1/2, closing at 1 05; seller March was quiet, closing at 1 05 1/2.
